In part 3 of this series Horst Wein offers to coaches and teachers a series of simplified games (3 against 3) to acquire the competence for the 7 v 7. This presents a space in getting bigger and bigger, the challenges become more complex. This way, the players learn to orient themselves in an enlarged area and to make correct decisions quickly.

"Stimulate through playing instead of instructing with exercises!"

In this DVD you will see how the players discover solutions on their own! If the coaches observe and the right ones. Only this way game intelligence can flourish.

Horst Wein created a model which adopts the philosophy of attack soccer but is more flexible.

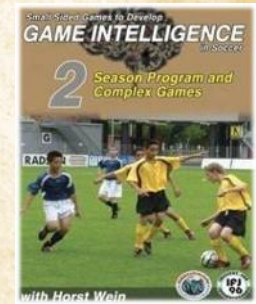

THE METHODOLOGY - HORST WEIN

“It is time for all coaches, whether novices or experienced, to revise their ways of coaching and tailor their training sessions and competitions to the children they are entrusted with.”

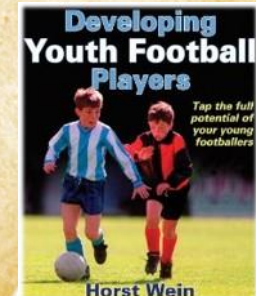

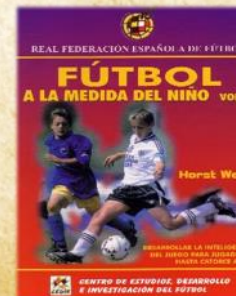

Horst Wein

The model features an innovative system of coaching which is tailored to each age group’s cognitive capacities and physical abilities

A vibrant advertisement for Ronaldinho Soccer Academy. The central focus is a large, stylized word "RONALDINHO" in a bold, blue font. Each letter of "RONALDINHO" is filled with a different scene of young children playing soccer on a field. To the right of the word, a full-length image of Ronaldinho is shown in a red and white soccer jersey, pointing his right index finger towards the left. The jersey has a crest on the chest and the number "3" on the sleeve. The background is a dark blue gradient with glowing, concentric red and green lines radiating from the right side. In the bottom right corner, there is a small white silhouette of a soccer player kicking a ball. In the top right corner, the flag of Brazil is displayed. The overall aesthetic is energetic and colorful.

To whom it may concern

Following the requirement to present my Organization, I am very pleased to inform you about the following:
I have been working in the Sport Industry since 1998 creating a worldwide Network of Agents to support my business in Transferring Professional Players or Coaches among Top Football Clubs.
In 2002 I joined Sport and Peace Organization as Consultant for Big Sport Events in order to create a base to organize Football Matches for Humanitarian purposes.
In 2008 I recruited Players and Coaches to participate in a Humanitarian Game for Peace “IRAQ Vs the Rest of the World” in San Siro Stadium in Milan (Guardiola and Ancelotti coached the rest of the world team together).
In 2012 I created my new Company “Sport Sport” to give services and support to Top Football Clubs, organizing Friendly Matches, Camps and Academies for the Arab World, China and South America.
Over the last few years I have specialized my services, organizing Friendly matches with Former Football Stars and getting them to join a Group of “Ambassadors of Peace” which tied my relationship strongly with them because I negotiated very important contracts on their behalf.
Among those players we can count on: Ronaldinho, Figo, Ronaldo, Puyol, Roberto Carlos, and many more.
At the moment Sport Sport is developing an Academy Project in partnership with “Lin-ing” for the Chinese Government.

Best Regards
